A DOCUMENT COMPARISON SOLUTION

As business embraces the notion of collaboration, the need for a robust document comparison and control solution becomes even more critical.

Manually comparing and contrasting documents is a time consuming process that is prone to human error.

pdfDocs compareDocs gives business an automated solution that is accurate and efficient.

"It was the commitment and responsiveness of DocsCorp that made the decision to deploy the software company wide an easy one. Software is only as good as the company that supports it and in DocsCorp we are confident that our investment will deliver long term value."

Garry Meikle, National Applications Manager, Minter Ellison.

"I recommend it as a good Adobe Acrobat alternative. After using it to edit multiple PDFs as one file, I now see the beauty of the implementation."

Law Office Computing Review: Richard C. Belthoff Jr., vice president and assistant general counsel at Wachovia Corp.

TWICE THE COMPARISON

There are a few document comparison tools that allow you to compare Word-to-Word documents or PDF-to-PDF documents.

compareDocs as a standalone application will compare Word-to-Word or PDF-to-PDF documents. Now that's unique!

COMPARING APPLES WITH ORANGES

When bundled with pdfDocs Desktop, compareDocs compares apples to oranges, that is Word-to-Word, PDF-to-PDF, Word-to-PDF, anything-to-anything.

PATENTED TECHNOLOGY

compareDocs uses leading-edge technology to compare the difference between two documents to help authors collaborate on business-critical documents without fear or risk.

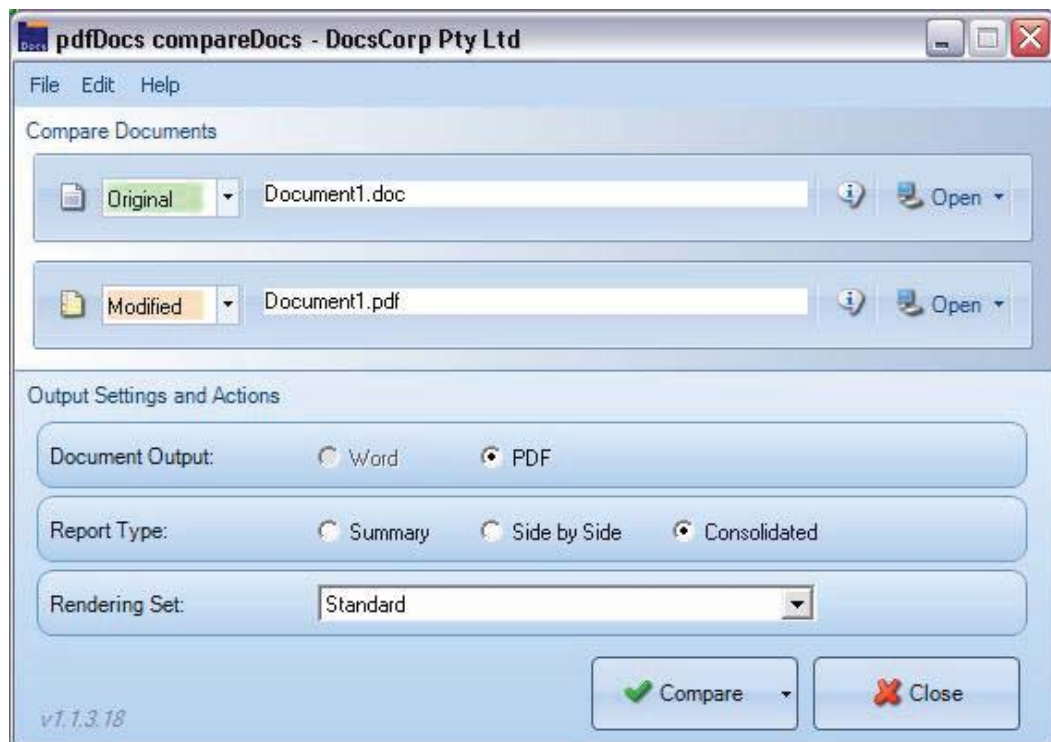

DOCUMENT MANAGEMENT INTEGRATION

pdfDocs compareDocs integrates with the Interwoven WorkSite document management system.

A single right-click on a document allows users to compare documents stored inside and outside the system without leaving the DMS environment.

COMPLIANCE

pdfDocs compareDocs enables business to meet industry and corporate compliance regulations by providing a reliable tool for tracking and discovering changes to business-critical documents.
